TO DO LOG

INSTRUCTIONS:
1. List Problems.
2. Rank order problems.
3. List possible solutions (more is better).
4. Evaluate solutions; **X** = Impossible. **?** = Difficult & **Y** = Possible/Easy.
5. Pick one thing to the next day about the problem & circle it.
6. Scratch out solution once it has been tried and move on the next one if necessary.
